

FRANCESCA LADISA, MSc

CLINICAL PROJECT ASSISTANT (CMU AND PHARMA UNIT)

Francesca Ladisa has a BSc and MSc in Molecular and Cellular Biology from Università di Tor Vergata, Rome, and a second level master's degree in Biomedical, Autoptic and Hystocytotechnical Sciences from Università Cattolica del Sacro Cuore, Rome.

Ms. Ladisa's professional experience includes internships in several scientific disciplines, including molecular biology and molecular pathology, together with management and accounting experience at a consulting company, and 2 years as a Clinical Project Administrator at Covance, the international pharmaceutical clinical research organization. As Clinical Project Administrator, her main responsibilities were to: provide support to the project team; act as the point of contact between the project team and study sites; assist Clinical Research Associates (CRAs) with on-site tasks, and provide support for Case Report Form (CRF) query resolution; set up and maintain clinical investigator files; uploading documentation to the electronic Trial Master File; arranging payments to investigational sites; manage the new study feasibility process through direct contact with Principal Investigators; and assist the Start-Up Team in submission and notification to Ethics Committee and Regulatory Authorities.

At Donawa Lifescience Consulting (DLC) Ms. Ladisa is a Clinical Project Assistant, supporting the Senior Clinical Project Manager in helping to ensure that all aspects of the clinical studies being managed on behalf of company clients run to time and budget.
